A GUIDE TO OUR LEADING TECHNOLOGIES

PlayDry is a leading moisture management system that wicks perspiration away from the skin and transports it to the garment's outer layer so it can evaporate into the air. You stay cool, dry and comfortable. Play Dry, Play Better.

Eco-driven polyester pique made from recycled oyster shells from the fishing industry; reduces waste by repurposing shells. Naturally inherent and permanent anti-static performance, anti-microbial & anti-odor.

The most comfortable technical fabric in golf. Industry-leading ML75 offers advanced moisture wicking performance with a luxury look and hand feel.

Feel the future. Featherlight X-Lite 50 is a woven extreme performance fabric with four-way stretch and a crisp hand feel.

The same great ML75 performance with added Solar XP extreme sun protection and an advanced cooling technology.

Solar XP offers chemical-free extreme sun protection with PlayDry technology for a fantastic lightweight hand feel and high performance.

The same ML75 feel, functionality and sun protection, with sustainability in mind. Each garment is made from 12 recycled plastic bottles, reducing landfill waste.

Weatherknit is a diverse collection of the latest Sun Protection, Heat Protection, Rain Protection, Wind Protection and Heat Retention technologies.
